Bachelor of Science (Honours) Software Engineering

UECS2333 Human Computer Interaction Design

ACADEMIC YEAR: 2024/2025

TRIMESTER: June 2024

Assignment Task 2

No.	Name	Student ID	Practical Group
1	Ang Yong Xen	2301521	P9
2	Kyle Yamato Christian	2302452	P9
3	Tan Jun Yin	2302533	P10
4	Yap Kai Zheng	2302943	P3

Total Marks:

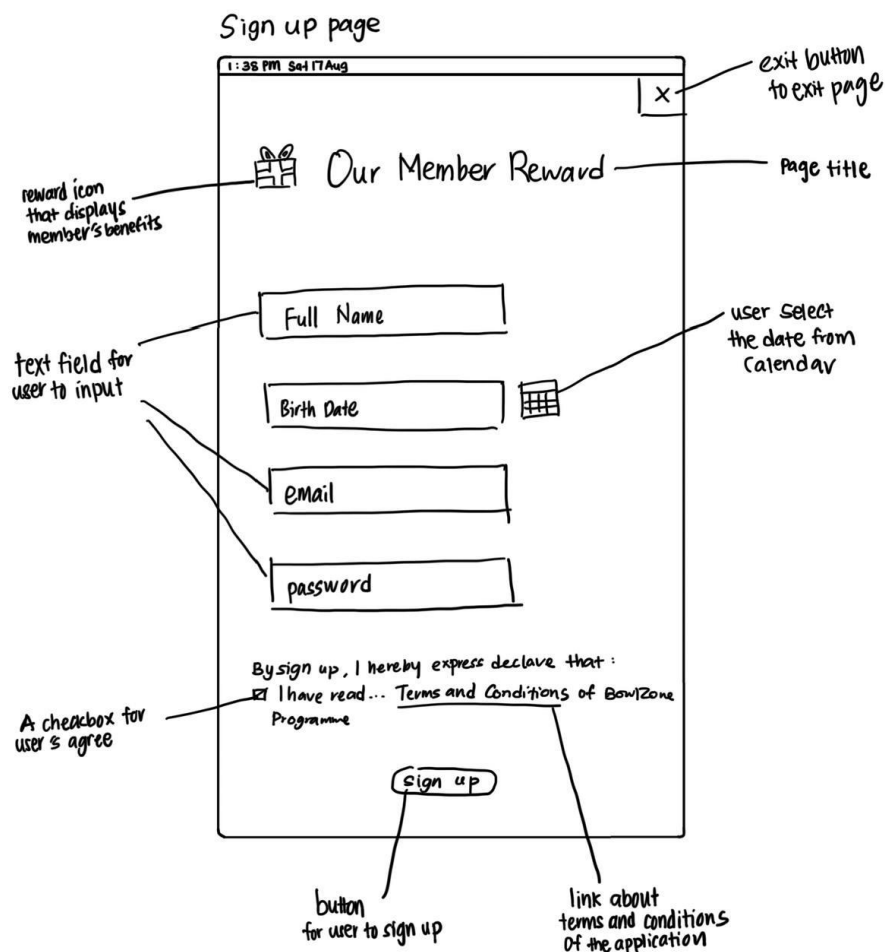

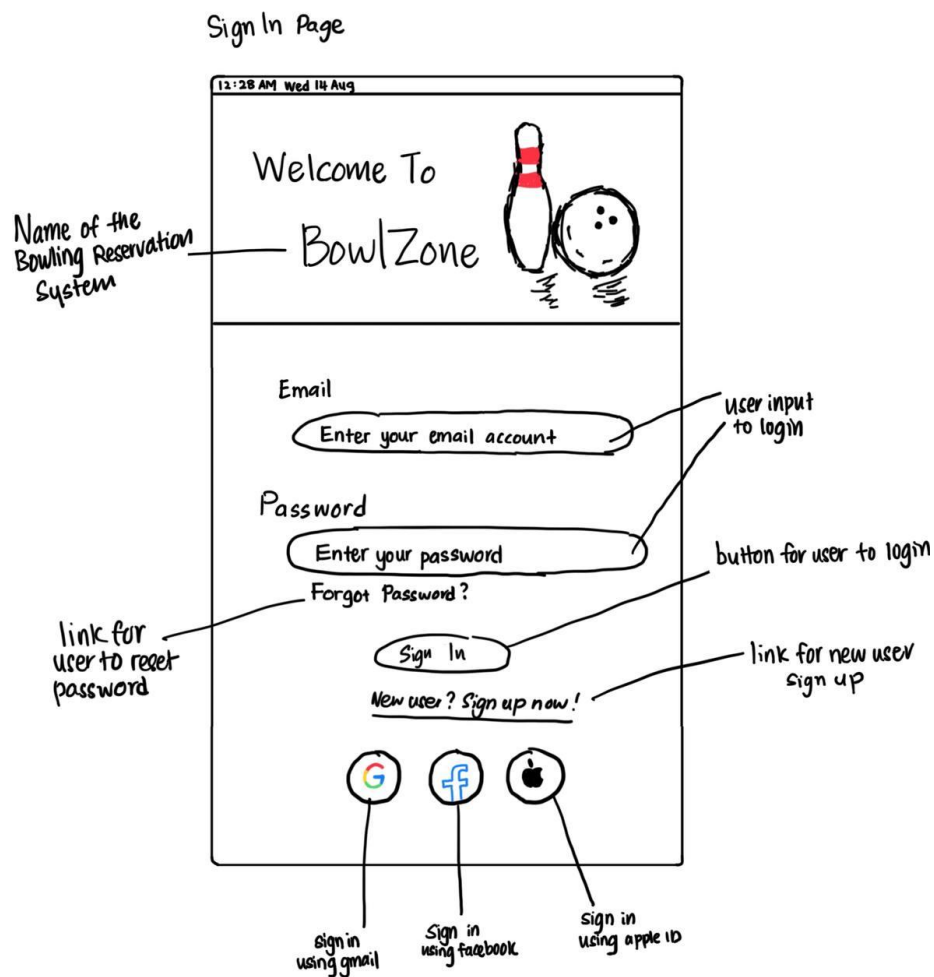

1	Writing Usability requirement		20%
2	Storyboard Design with Screen Sketches		10%
3	Writing Task Scenario		10%
4	Interactive Prototype: Content		5%
5	Interactive Prototype: Fidelity		5%
6	Interactive Prototype: Behavior		10%
7	Interactive Prototype: Unified Design		10%
8	Individual contribution: determine the % gained from the graded mark.	100%	
Total			70%

Usability Requirements

No	Usability Attribute	Measuring Instrument / Functions	Value to be Measured	Target Level	Observed Result
1	Speed of performance	“Reserve booking” task	Booking lane reserved	5 sec	
2	Speed of performance	“Sign in” task	Account recorded	5 sec	
3	Speed of Performance	“Confirm reserve booking” task	Time to receive confirmation notification after booking is completed	5 sec	
4	Effectiveness	“Contact support” task	User contacts support for help	Successfully contact for help	
5	Effectiveness	“Reserve booking” task	User reserves a booking	Successfully reserve booking	
6	Effectiveness	“Redeem reward” task	User redeems their member points for reward	Successfully receive reward	
7	Effectiveness	“Update personal information” task	User updates their personal information	Successfully update personal information	
8	Efficiency	“Access all available button” task	Time to user access the button	3 min	
9	Efficiency	“Reserve booking” task	Time for user to complete reserve a booking	7 min	
10	Efficiency	“Make a payment” task	Time for user to complete the payment	2 min	
11	Rate of Errors by User	“Reserve booking” task	Number of errors	1 error	
12	Rate of Errors by User	“Reset password” task	Number of errors	1 error	

13	Rate of Errors by User	“Enter the number of lanes”	Number of errors	1 error	
14	Rate of Errors by User	“Enter the booking date”	Number of errors	1 error	
15	Subjective Satisfaction	“View booking information” task	Frustration/satisfaction scales 1- Very dissatisfied 2- Dissatisfied 3- Neutral 4- Satisfied 5- Very satisfied	≥ 3	
16	Subjective Satisfaction	“Reserve booking” task	Frustration/satisfaction scales 1- Very dissatisfied 2- Dissatisfied 3- Neutral 4- Satisfied 5- Very satisfied	≥ 3	
17	Time to learn	“Learn more” task	The time for user locates the about page to gather information	1 min	
18	Time to learn	“Reserve booking” task	Reduce in task of complete time on the second trial	2 min	
19	Time to learn	“Make payment” task	Reduce in task of complete time of payment on second trial	3 min	
20	Appeal	“Give feedback” task	Allow user to give feedback at the contact page about the system	Good feedback	
21	Retention over time	Entire system	How satisfied the user experience to use our system (with scale 1 to 5)	4 and above

Task Scenario

Sign In using Email/Gmail/Facebook/Apple

At first, Jasmine access the bowling reservation via a mobile app. Jasmine sign in to her account on the 'Sign In' page by enter her Email account and password on the text field given. She clicks on the 'Sign In' button and the app will direct Jasmine to the 'Home Page'. Besides that, she can also access to her account using her Gmail, Facebook or Apple account too. After the account successfully sign in, the app will directly bring her to the 'Home Page'.

Sign up as new user

Jasmine is a new user for the bowling reservation application. She clicks on the sign-up link below to register her account. The app request Jasmine to fill up her details for her account. Jasmine enters her full name on the first text field. Next, she enters her birthday date by choosing the date on the calendar given at the beside. She also enters her personal email. She sets her own password and re-enter her password for confirmation. After she done entered her details, she must read the terms and conditions of the application system by clicking the links below. After she read and agree with the terms and conditions, she clicks on the checkbox. She clicks 'Sign Up,' and the app displays a message that her account has been successfully created. She then clicks 'Return' to go back to the sign in page. Now, she enters her account details on the text fields.

Forgot password

When Jasmine enters her account details, she finds out that she has forgotten her account password. She clicks on the forgot password link to reset her password. The app request Jasmine to enter her registered email account. After she enters her email, a verification code will be sent to her email address. She enters the code that she received and click on the 'VERIFY'. The app displays two text fields below. Jasmine enters her new password and re-enter her password to confirm. She clicks 'UPDATE PASSWORD' and the app displays that her password has been successfully updated. After that, she clicks 'RETURN TO SIGN IN PAGE' and the app direct Jasmine to the sign in page to enter her account details.

Access all available button

Jasmine access the 'Home' page. The page displays all the details about BowlZone such as upcoming events, pictures and navigation bar. Firstly, Jasmine clicks on the location button at the top to set Sungai Long as her current location. Then, the app displays the details about the bowling reservation at Sungai Long. Besides that, she clicks on the notification bell beside the location to check any news and offers that she received. Furthermore, she able to access the navigation bar at the bottom of the page. There are five buttons at the navigation bar. Jasmine clicks on 'My Account' button to access her account information. Next, Jasmine clicks on 'My Rewards' button to check her member points and redeem voucher. Moreover, Jasmine clicks on 'Book Now' button to make a booking reservation. Besides, Jasmine clicks on 'Help' button to get assistance. In addition, Jasmine clicks on 'About Us' button to learn more about the app system.

Learn More

Jasmine realizes that she doesn't fully understand the bowling application system, so she decides to learn more about it. Jasmine clicks on the 'About Us' button to access the BowlZone's details. The app directs her to the 'About Us' page, where she able to read and easily understands the concept and purpose of the BowlZone application. After she read all the information, she closes the page to return the home page.

Reserve booking

Jasmine plans to make a new bowling reservation with her friends next weekend. After reviewing her booking information on the 'My Booking' page, she clicks the 'START BOOKING' button to begin a new reservation. The app directs her to the 'Reservation Booking' page. Jasmine selects the booking date by choosing from the calendar beside. Once the date is selected, she enters the number of guest and number of lanes that she wants to reserve. Besides, she also selects the duration of game and the start time for the booking. After entering all the booking details, Jasmine clicks the 'CONTINUE' button to proceed further. Next, the app provides an optional page where Jasmine can add on food or equipment to her booking. She decides to add on a hotdog, a coke and gloves for her booking as she anticipates they might be hungry and lacking the necessary equipment for bowling. Once she has made her selections, Jasmine clicks 'CONTINUE' button and is taken to the payment page. Jasmine enters her personal information, including her name, email, and phone number. She chooses to pay by credit card and the price is displayed below. Since Jasmine has made a reservation before, when she confirms the payment, the amount automatically deducted from her credit card.

Contact Help

Situation 1:

While attempting to complete her booking, Jasmine encounters an issue with the payment process. She clicks on the 'Help' button on the home page, and the app directs her to the help menu page for assistance. She selects 'Payment and Billing' for problems encountered, followed by 'My payment was declined' as the issue. After choosing this option, a solution is provided below, and Jasmine can resolve her problem. In addition, Jasmine fills in the feedback form with her name and email address. She gives feedback on her overall system experience and satisfaction in the text field. After writing her feedback, she checks the box agreeing to the rules provided by BowlZone and clicks the 'SUBMIT FEEDBACK' button. The app displays a confirmation that her feedback has been submitted. She then returns to the Home Page by clicking the 'Return' button.

Situation 2:

While attempting to complete her booking, Jasmine encounters an issue with the add-on page. She clicks on the 'Help' button on the home page, and the app directs her to the help menu page for assistance. She selects 'Technical Problems' as the category for the problem but finds that none of the options match her specific problem. She scrolls down and clicks the 'Email Us' button at the bottom of the page. This opens a form where she provides details about her problem, including her email address, and a subject of the email. After filling out the form, Jasmine clicks 'SEND' button, and the app confirms that her email has been sent. She then returns to the Home Page by clicking the 'exit' button.

View booking information

Jasmine forgot about her previous booking reservation on the app, and she wants to review it back. Jasmine clicks the 'Book Now' button located on the navigation bar. The app directs her to the 'My Booking' page, which displays Jasmine's booking dashboard, showing an overview of her booking information. The dashboard includes the upcoming bookings and past bookings. Jasmine clicks on the first booking details. With the booking details 1, she able to review her previous reservations. She sees a list that includes details such as the date and the time, the lanes of the bowling alley, and any information associated with the reservation. After reviewing, Jasmine clicks the 'Exit' button to return to the main dashboard.

View notification

Jasmine wants to check for any upcoming events or updates about the bowling application. She clicks the notification bell icon at the top right of the page. The app directs her to the Notification page. On this page, the app displays all the notification related to the news and updates about the bowling application. Jasmine reviews these notifications to stay informed. After reviewing, she clicks the dismiss button next to each notification she wants to remove. In addition, Jasmine receives a notification confirming the booking she recently made. The notification includes the details of her reservation. Besides that, Jasmine wants to receive all notifications from the app going forward. To do this, she enables the email notifications by clicking the toggle button at the top of the notifications page.

Redeem a reward

Jasmine wants to check if she can redeem a reward using her member points. She clicks the 'My Rewards' button on the navigation bar. The app directs her to the rewards page. Since she registered her account with the app before, she has 2,000 member points in her account. Jasmine sees that her points can be redeemed for rewards, so she chooses to use her 500 points for a 30% discount on her next order. She clicks the 'REDEEM NOW' button and the discount automatically applied to her next booking. In addition, Jasmine has a reward redemption code. She enters **ABC123** in the reward redemption box and clicks the 'CLAIM' button. After the code is redeemed, a free drink reward appears at the bottom page. She also redeems the reward for her next booking as well.

Update personal information

Jasmine noticed that her name was entered incorrectly and wants to change it. She clicks the 'My Account' button on the navigation bar. The app directs to the 'My Account' page, which displays all Jasmine's personal information, including her name, birth date, gender, and contact info. Jasmine clicks the 'update' button. A prompt then appears, requesting her to enter her new profile information. She enters her name correctly and selects her birth date from the calendar. After confirming her information, she clicks the 'Update Profile' button. Once completed, Jasmine's name is updated correctly on the profile information.
